While we are so busy these days with a number of things we must let the new things we are doing take the place of non-essentials which have engaged our time. Nevertheless, the people desire the necessary things of carrying on the work of our spiritual lives such as prayer, reading God's word and attending our religious services. These things are as essential as they ever were, even more so. Give of your best to God and His work.

**METHODIST CHURCH**

**AGENCY ANNOUNCES NEW PROJECT FOR 4-H CLUB MEMBERS**

Bullock county 4-H club boys and girls will give their assistance this year toward defeating the Japs and Germans by enrollment in a food-for-victory contest. County Extension Agent Byron Davis announced.

Under regulations of the new contest, club boys will be asked to carry out projects in poultry, vegetable, corn, wheat and other crops. Boys will enroll in poultry, gardening and canning. This increase in these food products is being requested for both home use and surplus for sale in co-operation with the nation's food-for-victory campaign of the department of agriculture.

Any bona fide 4-H club member is eligible to enter the contest, according to national department regulations. However, all products must be produced and owned by the club members.

To further aid the winning of the war, the winning members will receive defense stamps as rewards. Contest prizes will be set, and twenty-four district winners will get \$5 each. State winners—one boy and one girl—will receive a first trip to Chicago, while runner-ups will get \$2.50 each.

## Contest Opens for High School Seniors

As a part of their diamond jubilee celebration, Rich's is offering a scholarship covering tuition for four college seniors in any college in Georgia for the best essay in the state written by a high school senior on the subject, "The Citizen's Duty to the State of Georgia." The award also includes dormitory and board fees for the freshman year in college.

The diamond jubilee contest is open to all seniors in every city, county and private senior high school in Georgia and involves the writing of an essay based on personal research. It is designed to encourage the future citizens of the most useful men and women produced by their state.

Each county winner in the contest will receive a \$25 defense bond, together with a trip to Atlanta as the guest of Rich's for an announcement luncheon in May. The winner of the second best essay will be given a \$10 award.

Special awards of \$25 will be given to the writers of the best essays in each congressional district of the state, while the English teachers of these winners will receive \$100 and a trip to Atlanta.

The diamond jubilee contest is under the direction of Miss Jessie White, former principal of the High School in Atlanta. The closing date of the contest is Feb. 28, 1942.

The contest is sponsored as part of Rich's seventy-fifth anniversary celebration. It is a part of the events scheduled for the jubilee which will continue throughout 1942.

### COCA-COLA COMPANY PLANS TO AVOID SUGAR SHORTAGE

Pledging their unequalled support to every appropriate governmental effort to avoid any sugar shortage in this country, the Coca-Cola company this week issued a statement concerning their rationing of syrup.

Under the federal government, thru OPM, recently issued an order which restricts any manufacturer using sugar (also any jobber or wholesaler) from accepting large deliveries from an importer or refiner in any one month than was received in the same month of 1941, or from accepting delivery of more than a thirty days' supply (based on 140 volumes) of refined sugar.

The Coca-Cola company has substantial stocks of sugar on hand—recently acquired but gradually accumulated through an extended term of years. This strong inventory position is highly fortunate from a broad economic viewpoint since it represents material that would otherwise be unavailable in this country as an addition to the nation's supply of foodstuffs, available for the eventual use of ourselves or the public.

"It should be emphasized that the company itself has been fully and, we believe, correctly—assured the country that limitations on the use of sugar have been imposed not because of any existing or impending shortage but to prevent one. The effect of interruptions of sugar shipments from the Philippines and the reduction of supplies from Hawaii may be made less serious by the purchase by the United States government of the bulk of the enlarged Cuban crop of 1942; (2) expanded use of beet sugar production; (3) the use of surplus corn instead of sugar to produce alcohol for explosives; (4) enlarged receipts from South America and other sources; (5) increased use of alternative products, such as corn sugar, maple sugar, honey, etc.

"Co-operating with this program and the government to the governmental order, the Coca-Cola company is supplying bottlers and jobbers throughout the country the corn sugar, maple sugar, honey, etc. in the corresponding month of 1940, with the provision of additional stocks of sugar being supplied to the War and Navy departments.

## All's Fair

Up and down the streets they go—these new school girls with note books under their arms. All they need to take them back to the days of the Little Red School House is an apple and a slate.

When I ask a young girl what she is learning she promptly replies, "How to treat you for shock." Now, folks, I think you really got something there. Somewhere or later, Mary, I think we shall all have to call on you. . . . Bessie Kenyon writes from Atlanta, "For around without knowing what was carrying me, but now I can name the bones in my body. So you see, I'm in an old iron wheelbarrow over which little girls roasted wieners and toasted marshmallows."

And little Jane Harley Whitman has just celebrated her first birthday by learning to walk and quite a little bit of toddling. So you see, Well, I'll be toddling along.

As ever, JANE.

## MUSIC RECITAL

Mrs. Virgie Lee Hilliard will present the eighth and nine grade pupils in a recital next Thursday evening, Feb. 5, at 7:30. The program will be held in the high school auditorium and the public is cordially invited.

and put Bulloch county over the top. And then we must all go to the gymnasium Friday night and join the crowd who will bet we had and learned a good lesson therefrom.

You see, Ed, I just knew you would get around to printing about Mrs. Such entertaining her bridge club and Mrs. (or Miss) So & So winning a defense stamp for getting the first garment made and sewed in and out of traffic on a bicycle. . . . Speaking of buffaloes leads us right up to our hero of the week, "Moosy" Moss, a former athlete at Georgia Teachers college. We thrilled to the account of his escape from behind Japanese lines after knocking out the last of nine Jap planes and making a forced landing behind the enemy lines. Scouring around, Moosy found a cart drawn by a water buffalo and driving this primitive cart he found his way back to his comrades, thus living up to the comment made by Bob Winburn when he heard of the supposed capture of this former G. T. C. student. "We won't worry about Moosy, he'll get back somehow."

And while we are talking about prisoners: Quite a young lady was captive in a closed car for over an hour last week in our city and a frantic father worked desperately for nearly an hour to release his daughter. It happened like this: Little Maxine Brunson arrived around with Daddy Harry Brunson as he goes around his morning route. On Tuesday night, Maxine went along with daddy. Daddy went into a house and while he was away Maxine playfully locked herself in. When Harry came back she played such a nice game. He would try to coax her to come and unlock the door, but Maxine, liking his new game, would run laughing to the other side of the car. Harry coaxed, but Maxine, liking his new game, would run laughing to the other side of the car. Harry coaxed, but Maxine, liking his new game, would run laughing to the other side of the car.

## COUNTY AGENT SAYS BUMPER CROP WILL AID SOLDIERS

Byron Dyer, county agent, says that the bumper crop of wheat in making plans for a bumper crop of beef calves this spring. County agent Byron Dyer said this week that the bumper crop of wheat, which is an appetizer for soldiers, is an inexpensive energy food as well. And if made from a whole-grain cereal, they can be a top-notch source of important food values.

## Calves will be dropped in the late winter and spring months.

"For the production of strong calves, the winter ration of the brood cows must be balanced. Scanty, unbalanced rations to them in small lots, which will result in small, weak calves at birth."

The county agent asserted that there is an inclination to neglect the brood cows during the winter months. Too many cows are turned loose in the woods and fields during the winter months with no regard for feed, shelter, or personal supervision, he added. He also said expensive burns are not well bedded sheds should be provided for cold, rainy weather.

"Winter grazing must be supplemented with some kind of roughage such as grass and legume hays, silage, and a small amount of protein supplement," Mr. Dyer continued. "It is important that the brood cows be kept in good condition at all times, too. A mineral mixture composed of equal parts of steamed bone meal, ground limestone, and salt, will be most beneficial to the brood cows at birth. Liberal feeding of the brood cows will produce strong, healthy calves, and a fine crop of calves will result in 1942 will help win the war."

## FARMERS PURCHASED THROUGH TENANT PURCHASE PROGRAM

William W. Moore, R. R. 1, superintendent of the tenant purchase program, announced this week that the program has been successful in purchasing farms for tenants. On each of these farms, they plan to develop some five to fifteen acres of permanent pastures which will fit into a live stock program. At this time they realize that more money can be made from the live stock program than from any other source.

Money loaned through the tenant purchase program is amortized over a period of forty years at 3 per cent interest. However, these loans have been closed since the program was started in 1934, but Bulloch county was allotted a total of fifteen for this year.

On each of these farms there have been constructed a new dwelling house, new mule barn and other outbuildings. Sufficient money was added in these loans to purchase property so that these farmers may properly fence their farms where they will be able to diversify their crops. On each of these farms, they plan to develop some five to fifteen acres of permanent pastures which will fit into a live stock program. At this time they realize that more money can be made from the live stock program than from any other source.

## CREAL DESSERTS ARE ENERGY FOODS AND GOOD TO EAT

"A cereal dessert can be a real culinary bargain," points out Miss Irma Speers, home demonstration agent of Bulloch county. "For not only are cereal puddings, cookies, and cakes good to eat, but they are inexpensive energy foods as well. And if made from a whole-grain cereal, they can be a top-notch source of important food values."

## According to the home demonstration agent, whole-grain cereals are especially valuable in low-cost meals, because they furnish some of the vitamins and minerals likely to be low when the quota of milk, eggs, fruit and vegetables must be kept at a minimum.

## Food value of desserts made from either refined or whole-grain cereals can be bolstered considerably by the addition of milk, molasses and other such nutritious ingredients. When you put sorghum or molasses in cookies, puddings, cakes, or for instance, you are also putting in extra food value in the form of iron.

## Some of the easiest-to-make cereal desserts are bread puddings. These may be refined or whole-grain cereal desserts depending upon the kind of bread used in them. Practically any kind of bread may be used. Dried fruit—raisins, apples, pitted prunes, peaches, apricots—may be added for variety and additional food value.

## Another inexpensive type of pudding can be made by cooking corn meal or rice in milk in a slow oven (250 to 300 degrees F.). Add about 3 tablespoons of rice are needed for 1 quart of milk. Sweeten this with 1-2 cup of sugar. Add salt and nutmeg to taste. Add 1-2 cup of raisins if desired. Bake for two and one-half to three hours in a slow oven.

## added in these loans to purchase property so that these farmers may properly fence their farms where they will be able to diversify their crops. On each of these farms, they plan to develop some five to fifteen acres of permanent pastures which will fit into a live stock program. At this time they realize that more money can be made from the live stock program than from any other source.

## Money loaned through the tenant purchase program is amortized over a period of forty years at 3 per cent interest. However, these loans have been closed since the program was started in 1934, but Bulloch county was allotted a total of fifteen for this year.

## On each of these farms there have been constructed a new dwelling house, new mule barn and other outbuildings.
